

iPad Jamf School Management Program

Bull Creek Primary School uses Jamf School Management Program to support teachers, students and families. It ensures that all iPads within the school domain can be managed, setting school parameters to ensure students are engaged and focused on learning. Using this powerful management system, the school can deploy new apps, update existing apps, choose apps to include on the 'safe list' and monitor the use of the Wi-Fi. The school can purchase apps in bulk at a discounted price and quickly apply or remove the app remotely to the individual's iPad as required.

Before you can join the Jamf SCHOOL program

The process of joining the Jamf School program involves wiping the iPad.

For this reason, you need to backup your files on the iPad.

What to expect when your iPad is returned

The iPad will have been wiped - so all apps and data will have been removed. The student's iPad is wiped as part of the process of enrolling in the Jamf SCHOOL program. This removes all settings, apps, and documents.

As the iPad is now enrolled to Jamf School, an Apple ID is not required to access school apps that Bull Creek Primary provides for you. We strongly recommend you log back into your Apple ID afterwards, to download any of the previously purchased apps and to download the last iPad backup. It may be worth considering setting up a new Apple ID for your child and then using the family sharing option - this way your child will not receive messages and calls etc., meant for you.

Jamf Parent

Parents can use this tool to manage their child's device and the use of:

- Camera
- Safari
- Mail
- Messages
- FaceTime
- Phone
- iTunes
- iBook's
- Game centre
- Social Networking

Scan the QR code to access the
JAMF Parent Guide

An email will be automatically generated when your account is enrolled into JAMF School
